OUTREACH TO FAMILY & FRIENDS

Breast Friends provides tools to teach friends and family members how to offer emotional and physical support to their loved ones. Our "Tips To Show You Care" brochure suggests techniques to provide proactive support.

We offer support guides for kids of all ages. "Tools for Teens" and "When Mom Has Cancer, Helping Children Cope." This guide helps parents understand how much to tell their children, when to tell them, and what to look for in analyzing the needs of their child.
